REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The closest prior art as cited teaches claimed process of post heating the claimed fluoroelastomer compositions as exemplified by reference to Fujimoto et al, Japanese2001192482. The prior art, however, does not teach the claimed ratio of accelerator to polyol crosslinker, nor the improved coefficient of friction achieved using the ratio. The unexpected improvement using the claimed ratio, which is the reverse of what is exemplified in the prior art renders both novel and unobvious applicants, claimed process as well as the products made thereby.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
